SUMMARY

Cloud Product Manager with 5+ years scale enterprise cloud solutions at IBM with an MBA in Tech Product Management and a B.S.E. in Computer Science. I specialize in AI-driven platform growth, cross-functional roadmap execution, and turning content strategy into measurable account adoption for enterprise cloud clients.

EXPERIENCE

Cloud Product Manager (April 2021–Present)

IBM – New York, New York

- Lead content strategy that has grown AI search visibility from 40% to 90% for IBM Cloud strategic topics.
- Redesigned the onboarding flow, driving a 444% increase in account growth.
- Lead cross-functional engineering, design, and marketing teams to prioritize and ship cloud roadmap features
- Turn customer feedback, usage metrics, A/B test results into prioritized roadmap decisions.

Technical Sales Specialist (June 2018 – April 2021)

IBM – New York, New York

- Built enterprise sales pipeline, generating 30% growth through prospecting of prospective clients.
- Delivered technical product presentations that translated engineering specifications into client-facing value propositions.

EDUCATION

• MBA, Tech Product Management (June 2023)
